EDUCATION

-
- **Jaypee Institute of Information Technology (JIIT), Noida** Uttar Pradesh, India
B.Tech in Computer Science; CGPA: 7.58 *July 2024 – June 2028*

SKILLS

-
- **Languages:** C, C++, JavaScript, Python
 - **Web Development:** HTML, CSS, React.js, Node.js, REST APIs, Figma (UI Prototyping), AI driven development
 - **Core CS & Databases:** Data Structures & Algorithms, OOP, DBMS, Machine Learning (fundamentals), SQLite, MySQL, Firebase
 - **Tools & Platforms:** Git, GitHub, VS Code, Electron.js, Vercel, Linux/Unix CLI
 - **AI & APIs:** AI Integration, Prompt Engineering, Firebase Authentication

EXPERIENCE

-
- **Web Development Intern** June 2026 – July 2026
Constructive Reach Pvt. Ltd.
 - Developed backend features using Express.js and SQLite, collaborating with the team to implement project features.
 - Developed a Video Annotation Web Application with video upload, annotation management, and SQLite-based metadata storage.
 - **Tech Stack:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, SQLite.

PROJECTS

-
- **CheetCode v1.0 – Next.js, TypeScript, NestJS, PostgreSQL** GitHub
 - Built a full-stack AI-powered LeetCode companion that analyzes submitted code, tracks progress, and generates personalized improvement recommendations.
 - **Frontend:** Next.js, TypeScript, Tailwind CSS, Monaco Editor, NextAuth (GitHub OAuth). **Backend:** NestJS, Prisma ORM, PostgreSQL, Groq LLM API. Deployed on Vercel + Railway; 130+ commits.
 - **Netflix-Talks – HTML, CSS, JavaScript, Firebase** GitHub
 - Collaborated in a 4-person team to build a Netflix-style social platform with real-time global chat, discussion polls, and a personalized watchlist.
 - Implemented Firebase Authentication and Firestore integration; pulled live movie data via the TMDB API.
 - **QuantScope – Python, C++, Streamlit** GitHub
 - Built a stock analytics dashboard with real-time data (TwelveData API) and candlestick charts for multi-stock comparison.
 - Implemented a C++ analytics engine applying core DSA/competitive-programming concepts (Prefix Sum, Sliding Window, Kadane's Algorithm, DSU, Graph BFS, Segment Tree) for fast computation.

ACHIEVEMENTS

-
- Solved **300+** **Data Structures and Algorithms** problems on **LeetCode**.
 - Secured **Top 10 Rank** in **Execute 25.1 Coding Contest**, **JIIT Noida**, among **200+** teams.
